

# EXITO

Data sheet

## Door Alarm EXITO for Alert4U2

### Built-in alarm function

EXITO monitors a door passage. When the door opens a radio signal is transmitted to CMS.

### Monitoring

The device sends test-alarms at preprogrammed intervals to report status. EXITO has a built-in active and passive battery monitoring.

### Security

2-way radio communication to ensure the safety and reply of every message.

### Approval

EXITO uses the frequency for social alarms recommended by EU. Using this involves minimal risk of interference.

### Radio Approvals

- EN 300 550-1
- EN 300 220-3

### EMC Approval

- EN 301 489-3

### LVD Approval

- EN 60950-1

### Technical data

- Size (L x W x D) 80 x 35 x 23 mm
- Magnet sensor
- On/Off switch
- Powered by battery (1.5V AAA) or AC-adaptor
- Long battery life
- 869,250 MHz
- 2-way radio communication
- Adjustable output power
- Programmable via PC
